

AFROLEBENPLUS

HIV can affect each and every one of us directly or indirectly. Talking about it is difficult – but it helps!

**WE'LL
GIVE YOU
A HELPING
HAND!**

AFRO LEBEN PLUS

Self-help network of HIV-positive migrants and refugees

WHO ARE WE?

Established in 2001, AfroLebenPlus is a nationwide association of HIV-positive migrants and refugees that receives structural support from Deutsche Aidshilfe. Its members are from various countries in the world.

We – the regional delegates – are committed to improving the living conditions of migrants. This also makes us the point of contact for HIV-positive people with an international family background.

WHAT DO WE DO?

- ▶ We advise and support migrants after testing positive for HIV.
- ▶ We carry out prevention work in our migrant communities.
- ▶ We work towards eliminating isolation, racism, discrimination and stigmatisation of migrants and refugees in Germany.

WHY DO WE DO THIS?

- ▶ We want to improve the living conditions of migrants with HIV/AIDS in Germany.
- ▶ We promote and support individual and collective self-help to strengthen the self-confidence of migrants.
- ▶ Our activities aim to contribute to a social climate that opposes racism, stigmatisation and marginalisation of people with HIV/AIDS.
